Dear Parents / Caregivers

Term 4 is well underway and another short but very busy term lies ahead. A warm welcome to our new students and their families.

This term we are continuing our study on Change, Making Change and Ways of Enhancing Our Environment. This may include visits around town and to places of interest. We have already completed some stepping stones for our native garden and we are researching bird houses and bird feeders with the intention of making some to attract more wildlife to our school area.. In the middle of the term we will be looking at the election and some issues affecting our community. What changes could there be??

Reading this term includes developing more awareness of various types of text and ways of sharing information. This includes reading articles and shows ways of how information can be shared – graphs, tables, charts, text boxes, pictures and maps. Home reading should continue with advanced readers reading chapter books selected from the library and others with follow up work from reading at school. We also intend reading and performing plays. Something the children really enjoy!

Maths includes revision of the numeracy programme and ongoing testing supporting the national expectations . A big focus on learning basic multiplication and division facts this term. We are also studying position, including rotation, reflection mapping and compass work. This topic also involves describing position and direction using the language of maths.

Please remember the news days. This gives us an opportunity to share some current views and provides an opportunity to speak to and listen with others. All students should have a current news item to discuss with the class on their news day.

We will have our run jump throw activities (24th November).Sprints will be in the morning from 11.30 and activities in the afternoon. Some students have been selected to participate in the inter schools at Rathkeale on 11/14th November. The 21st to 25th is also our book week.

Some Year 5 students have been selected for patrol training and will be covering the 2011 patrols while the seniors are at camp from 14th-17th November. Year 6 students should now have completed their enrolments for intermediate. We have had a visit from MIS staff and students. Mrs Feringa and I will be going to visit MIS to view next years classes and orientation day at the intermediates for those attending next year is the morning of 25th November from 8.30 to 12.30.

End of year reports are being written and will be distributed on the final Friday of term. This day also is the day of the final assembly beginning at 1.30.

If you have any concerns about your child's progress please contact me through the school office.

The year appears to have gone very quickly and isn't it pleasing to know we are world champions at Rugby.

I hope you all have a pleasant Christmas and exciting new year.

Thank you all for your support during the year.

Regards

Stephen Elliott

In the middle of the term we will be looking at the election and some issues affecting our community. What changes could there be??

Reading this term includes developing more awareness of various types of text and ways of sharing information. This includes reading articles and shows ways of how information can be shared – graphs, tables, charts, text boxes, pictures and maps. Home reading should continue with advanced readers reading chapter books selected from the library and others with follow up work from reading at school. We also intend reading and performing plays. Something the children really enjoy!

Maths includes revision of the numeracy programme and ongoing testing supporting the national expectations . A big focus on learning basic multiplication and division facts this term. We are also studying position, including rotation, reflection mapping and compass work. This topic also involves describing position and direction using the language of maths.

Please remember the news days. This gives us an opportunity to share some current views and provides an opportunity to speak to and listen with others. All students should have a current news item to discuss with the class on their news day.

We will have our run jump throw activities (24th November).Sprints will be in the morning from 11.30 and activities in the afternoon. Some students have been selected to participate in the inter schools at Rathkeale on 11/14th November. The 21st to 25th is also our book week.

Some Year 5 students have been selected for patrol training and will be covering the 2011 patrols while the seniors are at camp from 14th-17th November. Year 6 students should now have completed their enrolments for intermediate. We have had a visit from MIS staff and students. Mrs Feringa and I will be going to visit MIS to view next years classes and orientation day at the intermediates for those attending next year is the morning of 25th November from 8.30 to 12.30.

End of year reports are being written and will be distributed on the final Friday of term. This day also is the day of the final assembly beginning at 1.30.

If you have any concerns about your child's progress please contact me through the school office.

The year appears to have gone very quickly and isn't it pleasing to know we are world champions at Rugby.

I hope you all have a pleasant Christmas and exciting new year.

Thank you all for your support during the year.

Dear Parents / Caregivers

Term 4 is well underway and another short but very busy term lies ahead. A warm welcome to our new students and their families.

This term we are continuing our study on Change, Making Change and Ways of Enhancing Our Environment. This may include visits around town and to places of interest. We have already completed some stepping stones for our native garden and we are researching bird houses and bird feeders with the intention of making some to attract more wildlife to our school area.. In the middle of the term we will be looking at the election and some issues affecting our community. What changes could there be??
